The quantity limit for 1983, as for 1982, is to be fixed by the Council at a level which will make a smooth transition to the system applicable from 1st January 1984 possible.

This Regulation proposes fixing the quantity for 1983 at 40 000 tons.

OBSERVATIONS : 1) The control system as such entails no financial implications. / On the other hand, the increase in the quantity subject to control from 30 000 to 40 000 tonnes could affect certain revenue and certain expenditure on exports of products replaced by these imports.
